Our Vision

At St Mary’s we believe in an environment where each person is able to achieve and celebrate their personal best through a friendship with Jesus.

We at St Mary’s live our vision by:

- Engaging students in life long learning to develop skills of communication, independent and collaborative learning and problem solving.
- Providing a safe and happy environment where the rights of all are respected and valued.
- Welcoming diversity in a caring and supportive way.
- Developing spirituality through a rich prayer and liturgical life.
- Celebrating the partnership between staff, students, parents, Parish and wider community.
- Fostering commitment to social justice and the environment.
- Providing a Religious Education program which develops knowledge of our Catholic Faith and nurtures positive relationships with God, self and others.
